

Southern Writers, Vol. 1: Biographical and Critical Studies (Classic Reprint)

Excerpt from Southern Writers, Vol. 1: Biographical and Critical Studies Since 1870 Southern writers have been conspicuous contributors to the nations literature, rendering it both more widely national and more representatively American. The time has not yet arrived for attempting to place a final estimate upon any portion of this contribution; but a presentation of the conditions under which these writers have labored and a narrative of some of the personal facts which have influenced their writings will tend, it is hoped, to stimulate a desire for a more intimate acquaintance with this literature, which is so fresh, original, and racy of the soil. The earlier writers of this period attracted unusual attention, and most readers beyond forty may recall the rapture of glad surprise with which each new Southern writer was hailed, as he or she revealed negro, mountaineer, cracker, or creole life and character to the world.
