

Elf Saga, Book 1: Doomsday (Part 3)

DOOMSDAY (Part 3) Trials of the Kitsune - Tomoe was dead, and now she's not. And she's barely recovered when a group of strange warriors ask her to help rescue someone from the vicious mermaids that plague her island country. As she casts her own spirit into the bodies of samurai and sages, she transforms her companions into legendary sword saints and gains new powers of her own, courtesy of a mysterious white fox. Knight of the Jaguar - As the newly anointed jaguar knight, Lozen must save the spirit Raven from the graves of the first elves, and help the spirit Coyote seal the doorway to the underworld. Then she must sail through a volcanic hellscape, and see the suffering of legions of slaves, and battle an army, and even slay the greatest dragon in the world. But the worst part... is watching one of her friends die. Discover the world of Vaenos, where dragons are weapons of mass destruction, faeries are pests, mermaids are monsters, and everyone has long pointy ears! With five heroines inspired by historical warriors and leaders, this modern twist on old-school fantasy mashes up classics like Lord of the Rings with the funny, sexy, self-aware style of Supernatural, Buffy, Archer, and Rat Queens.
