

# Essays on Deleuze

Gathers 20 of Smith's new and classic essays into one volume for the first time. Combining his most important pieces over the last 15 years along with two completely new essays, *On the Becoming of Concepts* and *The Idea of the Open*, this volume is Smith's definitive treatise on Deleuze. The four sections cover Deleuze's use of the history of philosophy, his philosophical system, several Deleuzian concepts and his position within contemporary philosophy. Smith's essays are frequent references for students and scholars working on Deleuze. Several of the articles have already become touchstones in the field, notably those on Alain Badiou and Jacques Derrida. For anyone interested in Deleuze's philosophy, this book is not to be missed.

The PDF file you selected should load here if your Web browser has a PDF reader plug-in installed (for example, a recent version of Adobe Acrobat Reader). *Essays on Deleuze* has 15 ratings and 2 reviews. Alexander said: Daniel Smith is the kind of philosopher who, given the stretch of Western Philosophy from Gathers 20 of Smith's new and classic essays into one volume for the first time.
