Thousands of vegetarian cookbooks exist, but if you're also grain free, finding recipes that don't include bread, beans or other grains and legumes can be a frustrating endeavor. And although you've most likely heard all about Paleo, if you're a certified veg, you've probably let its meat-heavy hype pass you by. But is there a way to experience the health benefits of Paleo, without the meat?

In Paleo For Vegetarians: 28-Day Meal Plan For Weight Loss and Radiant Health, health and fitness writer Katherine Barrington once again gives you the low-down on how our Paleolithic ancestors ate and how vegetarians can incorporate caveman principles into their diets, as well as offers you 40 NEW, simple and delicious vegetarian-friendly Paleo recipes, and a complete 28-day meal plan including grocery lists, all to make your life easier as well as more delicious. You'll even get a FREE BONUS recipe book entitled 10 Heavenly Paleo Smoothies, a selection of delectable smoothies you can eat at breakfast, as a snack, or any time of day!

By getting back to nature, to a time before processed foods, agriculture or even fire, you can experience benefits such as:

Increased energy levels

Stable blood-sugar  
Sustained weight-loss
