

In the 1940s, Brian Lewis was called to war and his wife, Prudy, took over her husband's job as a private investigator. Brian never returned. Prudy wants Sandi Webster and Pete Goldberg to help her solve a 1943 murder, the case she couldn't solve. It's personal, and Prudy wants to be in the thick of things again. After investigating, Sandi believes she knows who the killer is, but he's dead. So who's threatening her and Prudy? And who tried to poison Sandi's half wolf/half Golden Retriever dog?
