

Secession

UK General Election night 2007. Deep in the graveyard shift at his Newcastle office, rookie journalist George Halloran gets the first inkling of the story of his career. The Holy Island of Lindisfarne, just off the Northumbrian coast, has declared secession. This geographical microdot of 150 residents has opted out of a Britain in terminal decline. George heads north 50 miles to the action, and as he delves into the background begins to realise that the islanders have a point - quite a few, in fact. They believe their heritage is at risk - a heritage rich in Christian history - and they don't intend to let it happen. As he meets the new First Minister, a former merchant banker who is funding the action, George begins to compare the community spirit on the island with concepts like social cohesion, the Big Society and multiculturalism in the UK. He quickly realises he has the makings of a story of global dimensions. With a mixture of fact, humour, cynicism and political incorrectness, *Secession* explores the state of Britain today from the standpoint of a small island community which has decided its future lies in its own hands.
