

Tales of horror from one of the masters of the genre. Peter Meredith delivers stories that will keep you devouring them one after another. From the Pen - a gift that just keeps on killing, to The Eyes in the Storm - a beast that feeds on those who dare to go out when nature is at its cruelest, to The Haunting at Red Feathers - a true haunting that has the young couple trapped in the woods with a demonic presence, begging: Dont let the night catch me here! Seven tales in all come from the butchers block and that includes The Witch: Jillybean in the Undead World. What is more terrifying than a mad woman who is snatching up the children of Rippling, Missouri in order to breed the perfect zombie? A seven-year-old girl with fly-away brown hair and a gift for destruction.
