

Sometimes the dead need our help and sometimes, we need theirs. Angela Panther has a perfect life: A lovely home, an attentive, successful husband, two reasonably behaved children, a devoted dog and a lot of coffee and cupcakes. But while her life might border on mundane, she's got it under control. Until her mother, Fran, dies - and returns as a ghost. It seems Fran's got some unfinished business and she's determined to get it done. Now Fran's got some nifty celestial superpowers and isn't opposed to using them to levy a little ghostly retribution on her granddaughters' frenemies and even her own daughter, which doesn't make Angela happy. While Angela's shocked and grateful to have her mother back, she's not thrilled about the portal to the afterlife Fran opened upon her return. Now every ghost in town is knocking on Angela's psychic door, looking for help - and it's a royal pain in the butt. Now Angela's got to find a way to balance her family life with her new gift and keep her mother in line. And it's a lot for one woman to handle.
