Youll put newfound knowledge into practice with fifty master formulas for such classic breads as rustic ciabatta, hearty pain de campagne, old-school New York bagels, and the books Holy Grail Peters version of the famed pain a lancienne, as well as three all-new formulas. En route, Peter distills hard science, advanced techniques, and food history into a remarkably accessible and engaging resource that is as rich and multi-textured as the loaves youll turn out. In this revised edition, he adds metrics and temperature conversion charts, incorporates comprehensive bakers percentages into the recipes, and updates methods throughout. This is original food writing at its most captivating, teaching at its most inspired and inspiring and the rewards are some of the best breads under the sun.
