

The Carradine Diary

Graphic designer Abby Martin lives with her partner Gayle in England-until Abby secures an assignment to illustrate a biography of the 19th-century author Lucy Pritchard, and travels across the world to the coastal town of Carradine, Canada. Once there, Abby meets Elise, an attractive local French-Canadian whose own grandmother claims to have in her possession Pritchards ancient Carradine diary, a journal which details a private scandal-and the Lucy Pritchard revealed in the diary is very different from the Lucy Pritchard history remembers. Abby must not only accept the impossible truth about the authors time in Carradine, but in doing so also confront her own truth. For, far from home and falling in love with someone she should not, Abby is faced with a similar dilemma to that which once drove Pritchard from Carradine in disgrace ... but will Abby make the same choice?From the author of *The Ropemakers Daughter*, this is a poetic, sensually written thriller for lovers of mysteries and fine literary fiction alike.Praise for *The Ropemakers Daughter*:Full of unexpected twists ...
